VTS1500 SERIES

High Speed Feed-up-the-arm Machine
with Direct Drive

高速直驱直筒型绷缝机（猪嘴车）

VTS1500L

VTS1500L/ETS

VTS1500 系列集”无油污”机构等设计於一体的全能机型，奉献於您前所未有的缝纫体验！无论面料厚薄，均能获得平坦、整洁的完美缝目，更让您从此告别油污烦恼！

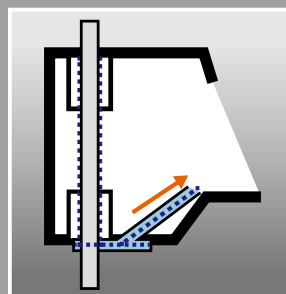

The VTS1500 series of Limandi is an all-round machine that integrates "oil-free" mechanism and other designs to provide you with an unprecedented sewing experience! Regardless of the thickness of the fabric, it can obtain a flat, neat and perfect seam, and let you say goodbye to the worry of oil stains.

防漏油设计! PREVENT-OIL-STAIN DESIGN

“防漏油设计”技术在不影响缝纫机性能及机械耐久性的前提下，保证了机器长时间高速运作下更经久耐用。

The technology ensures long-term and high-speed operation of the machine: Meanwhile, the machines maintain proper performance and mechanical durability.

- 强制回油系统
- Forced Oil-return System

- 特殊油封设计
- Unique-seal Design

产品特点 FEATURES

1 厚、薄料均可适用

独有之曲柄连杆式针棒机构使您能安心、顺畅地缝制，无论是女士超薄丝袜还是厚至运动裤过骨处，效果均一旦美观。

Suitable for both thick and thin materials

The unique crank-link needle-bar mechanism allows you to sew with peace of mind and smoothly. Whether it is women's ultra-thin stockings or as thick as the crotch of sports pants, the effect is uniform and beautiful.

2 缝制效果卓越

连续长时间缝制亦能保证稳定性，极少产生断针、跳针现象。

Excellent sewing results

Stability can also be ensured during continuous long-term sewing, and needle breakage and thread skipping are rare.

3 绝低噪音与极小振动,经久耐用

独有驱动传达系统,将噪音及振动降至最低。因而大大减少操作工因疲劳而引起的不稳定操作事故,提高工作效率、更能保证制品均一! 同时,更低得噪音与极小震动,减少机器磨损自然更经久耐用!

Absolutely low noise and minimal vibration, durable

Unique drive transmission system minimizes noise and vibration. Therefore, unstable operation accidents caused by operator fatigue are greatly reduced, work efficiency is improved, and the products are more uniform! At the same time, the noise and minimal vibration are lower, the machine wear is reduced, and the machine is naturally more durable!

按钮式调节缝目长度
简单、快捷。

Button-type Adjustment of Stitch Length
Simple and fast.

上饰线弯针右置
取放面料更容易。

Upper looper on The Right Side
For easier and safer handling.

外置凸轮
穿线与送线更顺畅。

External Thread Tensioner
The function is smoother for threading and feeding.

独立摆动的护针片
确保车缝时针的稳定性与避免跳针。

Rear Needle Guard is Driven Independently
Prevent broken needles and skipping stitch.

差动式送齿
无波浪缝制效果。

Differential Feed as Standard
No wave stitching effect.

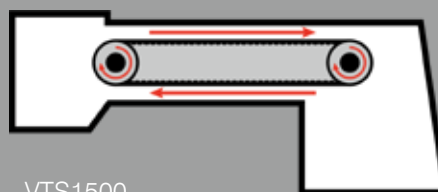

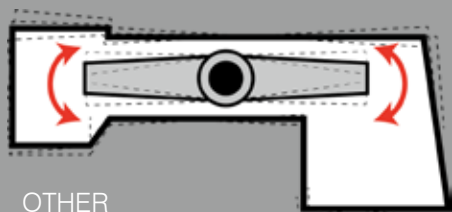

标准款180mm
加长款280mm

Standard Length: 180mm
Extra-long style length: 280mm

防震动设计！VIBRATION-FREE DRIVING MECHANISM

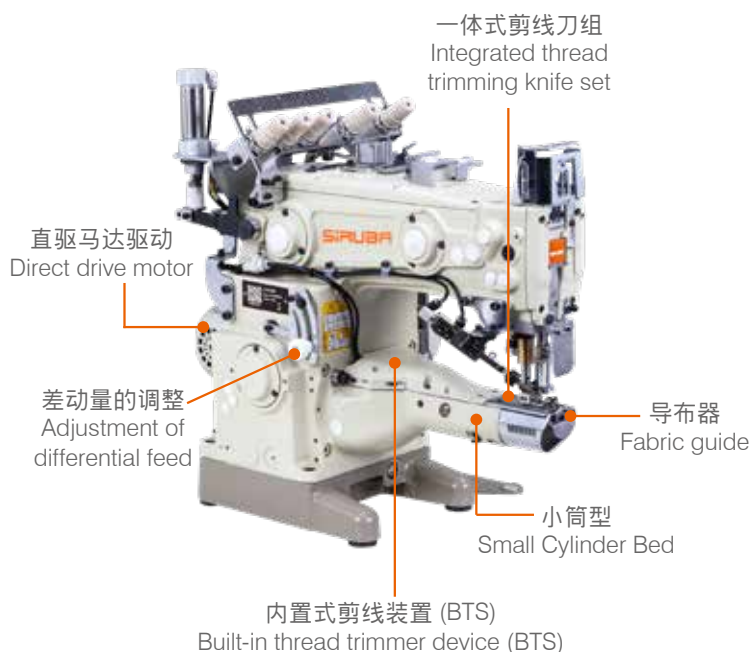

防震动设计减少了使用者的疲劳，并提升稳定的生产力与品质。

The unique vibration-free driving mechanism helps reducing operators' fatigue for stable productivity and quality.
